

Green Earth Objective

Paving the way to sustainability with the expansion of The HANA GEO line

Introducing Eternal

Elevate your space with the newest pieces from our exclusive collection

Left to right: Kevin, John, Woody, and Winnie.

ABOUT PEARL®

OUR STORY

In 1997, John started a business selling diamond-cutting tools from his garage so he could still support his family. Along with his wife, Deborah, they hoped their children would join the business, but each had their own exciting dreams ahead. In 2000, it became clear that John wasn't invincible. Woody, laying down his own dreams, felt compassion for his dad and stepped in. John eventually saw that he could trust his beloved employees and customers in Woody's reliable hands.

After John faced severe health complications in 2009, Kevin stepped in, as a university student, and ended up moving across the country twice dedicated to his father's work. In 2017, Winnie left her own career and joined Pearl® to lead human resources and build John's people-first culture. The three of them started to see how incredibly laborious the work was, and wondered how John ever did it on his own. Their respect and admiration for their father grew.

There's a Taiwanese children's song that Kevin mentioned at John's eventual celebration of life in 2020. It goes, "Big head, big head. When it rains, I'm not scared. You have an umbrella. But I have a big head." When the kids were young, they had their own strengths and dreams, and John – a cancer patient – seemed to be an umbrella of little use. But after they worked together all these years, they finally understood. Their dad wasn't a fancy big umbrella, but a broken umbrella. But this broken man was always covering their family, his entire life, no matter how weak he was. And it was his weaknesses that truly showed them what selflessness and sacrifice looked like. John's children understood this way of love, and they loved John in return. They would never let his business go.

Pearl® brought this family home. Their weaknesses strengthened their unity, and their difficulties led them to the joy of being together. Everything was done out of love for someone else. And everything at Pearl® is done out of this legacy.

À PROPOS DE PEARL®

Après qu'un cancer ait été diagnostiqué chez John en 1997, il a fondé une entreprise de vente d'outils dans son garage afin de pouvoir continuer de soutenir sa famille. John et Deborah espéraient que leurs enfants rejoindraient l'entreprise, mais chacun avait ses propres rêves. En 2000, il est devenu évident que John n'était pas invincible. Woody, éprouvant beaucoup de compassion pour son père, a renoncé à ses propres rêves afin de se joindre à l'équipe. John a fini par comprendre qu'il pouvait confier ses employés et ses clients bien-aimés aux mains fiables de Woody.

Après que John a connu de graves complications de santé en 2009, Kevin, étudiant à l'université, a pris la relève et a fini par traverser le pays à deux reprises pour se consacrer au travail de son père. En 2017, Winnie a abandonné sa propre carrière et a rejoint Pearl pour diriger les ressources humaines et développer la culture de John qui donne la priorité aux personnes. Tous les trois ont commencé à voir à quel point le travail était incroyablement laborieux et se sont demandé comment John avait pu le faire seul. Leur respect et leur admiration pour leur père se sont accrues.

Kevin a mentionné une chanson enfantine taïwanaise lors de la célébration de la vie de John en 2020. Elle dit : "Grosse tête, grosse tête. Quand il pleut, je n'ai pas peur. Tu as un parapluie. Mais j'ai une grosse tête." Lorsque les enfants étaient jeunes, ils avaient leurs propres forces et leurs propres rêves, et John - atteint d'un cancer - semblait être un parapluie peu utile. Mais après avoir travaillé ensemble toutes ces années, ils ont fini par comprendre. Leur père n'était pas un grand parapluie sophistiqué, mais un parapluie cassé. Mais cet homme brisé a toujours couvert leur famille, toute sa vie, malgré ses faiblesses. Et ce sont ses faiblesses qui leur ont vraiment montré à quoi ressemblaient l'altruisme et le sacrifice. Les enfants de John ont compris cette façon d'aimer, et ils ont aimé John en retour. Ils n'abandonneraient jamais son entreprise.

Pearl a réuni et renforcé cette famille. Leurs faiblesses ont renforcé leur unité, et leurs difficultés les ont conduits à la joie d'être ensemble. Tout a été fait par amour pour quelqu'un d'autre. Et tout ce qui est fait à Pearl provient de cet héritage.

COMMUNITY INITIATIVES

John and Deborah always shared a dream to give back. Deborah herself grew up with little, and John's childhood heroes were those who gave their lives for the less fortunate. For the last 20 years, Pearl® has directly supported Deborah to start her own charity which provides for orphans, widows, and broken families. Love in Homes (www.loveinhomes.org) has given thousands of individuals and families a new beginning. Walking alongside those who are less fortunate has reinforced Pearl®'s philosophy about genuinely caring about all people, and the importance of building homes and families.

INITIATIVES COMMUNAUTAIRES

John et Deborah ont toujours partagé le rêve de rendre service aux personnes démunies. Deborah a elle-même grandi dans une famille pauvre, et les héros de l'enfance de John étaient ceux qui donnaient leur vie pour les moins fortunés. Au cours des 20 dernières années, Pearl a directement aidé Deborah à lancer sa propre organisation caritative qui vient en aide aux orphelins, aux veuves et aux familles brisées. Love in Homes (www.loveinhomes.org) a permis à des milliers de personnes et de familles de prendre un nouveau départ. Le fait de marcher aux côtés de ceux qui sont moins chanceux a renforcé la philosophie de Pearl, qui est de se soucier sincèrement de tous les gens et de l'importance de construire des maisons et des familles.

SUSTAINABILITY INITIATIVES

Pearl® recognizes the importance of togetherness and home. Not just in immediate homes, but in the larger world.

Pearl® is partners with One Tree Planted, a global reforestation non-profit organization, to help restore forests, create habitats for biodiversity, and make a positive social impact. Every sink bought by a customer from our GEO line results in one tree planted around the world.

To learn more about One Tree Planted, visit onetreepanted.org.

INITIATIVES ENVIRONNEMENTALES

Pearl reconnaît l'importance de l'unité et du foyer, non seulement dans les habitations immédiates, mais aussi dans le monde entier.

Pearl est partenaire de One Tree Planted, une organisation mondiale de reforestation à but non lucratif, pour aider à restaurer les forêts, créer un habitat pour la biodiversité et avoir un impact social positif dans le monde entier. Chaque évier acheté par un client de la gamme GEO de Pearl permet de planter un arbre dans le monde.

Pour en savoir plus sur One Tree Planted, visitez le site onetreepanted.org.

Rediscover your passion for design.

Boldly embrace the spotlight with all the unique and unparalleled details this exciting new line has to offer.

Tasteful and polished design aesthetics that transcend changes in fashion are the hallmark of this curated collection. Crafted with love and forged from the fires of our most exclusive design vaults, the Eternal collection is the perfect finishing accent to elevate your space.

Redécouvrez votre passion pour le design.

Mettez votre espace en vedette avec tous les détails uniques et inégalés que cette nouvelle gamme passionnante a à offrir.

Cette collection se caractérise par une esthétique raffinée et de bon goût qui transcende les changements de mode. Fabriquée avec amour et forgée à partir des feux de nos voûtes de design les plus exclusives, la collection Eternal est l'accent de finition parfait pour rehausser votre espace.

Chronos

Matte Black Vessel Sink

Playing with light and shadow, sleek angular lines effortlessly draw the eye. Drawing inspiration from geometric art in Ancient Greece, the Chronos vessel sink is the clear centerpiece in any modern bathroom.

Lavabo vasque noir mat

Jouant avec l'ombre et la lumière, les lignes épurées et anguleuses attirent le regard sans effort. S'inspirant de l'art géométrique de la Grèce antique, le lavabo Chronos est la pièce maîtresse de toute salle de bain moderne.

Ellison

Smart Toilet

At the forefront of smart toilet technology, the Ellison offers full bidet functionality, automatic hands free flush capabilities and antibacterial features for added peace of mind. Coupled with comfort driven elements such as heated seats and adjustable water customization controls, once you experience the Ellison, you'll never look back.

Toilettes intelligentes

À l'avant-garde de la technologie des toilettes intelligentes, l'Ellison offre une fonctionnalité bidet complète, des capacités de chasse d'eau automatique mains libres et des fonctions antibactériennes pour une plus grande tranquillité d'esprit. Associé à des éléments de confort tels que des sièges chauffants et des commandes de personnalisation de l'eau réglables, une fois que vous aurez fait l'expérience de l'Ellison, vous ne reviendrez jamais en arrière.

CUVI

KITCHEN LIFE

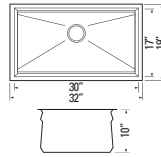

Inspired by “vie de cuisine”, which is French for “kitchen life”, the CUVI Series is the ultimate in handmade kitchen sinks. It offers an incredibly striking metal anatomy without compromising the practicality of its elaborate system of accessories. The pragmatic yet sensible concept the CUVI draws from is what makes it a fully complete kitchen sink system.

Image: CUVI - PRO

Inspirée de la «vie de cuisine» française, la série d'éviers CUVI est les ultimes éviers de cuisine confectionnés à main.

Cette série propose des structures frappantes sans compromettre la fonctionnalité de son système élaboré d'accessoires. La conception pragmatique et logique des produits CUVI englobe ce que représente un système complet d'évier de cuisine.

KINGSTON

BIRTH BY FIRE

The apron sinks of the KINGSTON Series are made with high-melting point fireclay ceramic, with hardness properties greater than that of metal.

The high quality glaze uses a state-of-the-art formula that further enhances the look and feel of the sink. This vintage chic design offers a clean farmhouse look that cannot be mimicked by kitchen sinks made of metal or stone.

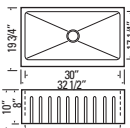

Image: KINGSTON - PG32 & SANTINO

Les évier à tablier en céramique KINGSTON sont fabriqués avec de la céramique d'argile réfractaire à point de fusion élevé, avec des propriétés de dureté plus fortes que le métal.

La glaçure de haute qualité utilise une formule sophistiquée qui améliore encore l'apparence de l'évier. Le design chic offre un aspect de ferme authentique qui ne peut pas être imité par les éviers de cuisine en métal ou en pierre.

HANA GEO

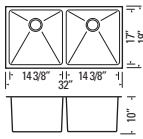

GREENER STILL

The HANA GEO Series by PEARL® is a line of high-quality, eco-friendly sinks. The stackable design is space-saving, allowing sinks to be transported in the most eco-friendly way by reducing carbon emissions.

Best of all, Pearl® will plant a tree for every GEO model sold, which equates to up to 48 pounds of CO2 removal per year.

HANA GEO par PEARL® est une gamme d'éviers écologiques de haute qualité. Le modèle empilable de la collection HANA GEO économise l'espace et permet aux éviers d'être transportés de la manière la plus écologique tout en réduisant les émissions de carbone.

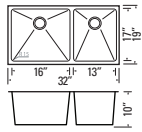

Mieux encore, Pearl® plantera un arbre pour chaque modèle GEO vendu, ce qui équivaut à jusqu'à 48 livres d'élimination de CO2 par an.

Fabriqué en acier inoxydable T304 de calibre 16 pour améliorer la durabilité et l'hygiène.

StoneGuard™ undercoating and sound dampening improves material rigidity and endurance.

La sous-couche StoneGuard™ et l'insonorisation améliorent la rigidité et l'endurance du matériau.

Strainers are included with every KESHI Series kitchen sink for ease of installation.

Les filtres sont inclus dans chaque évier de cuisine de la série KESHI pour faciliter l'installation.

Stainless steel sink grids are available for select KESHI Series designer sinks.

Des grilles d'évier en acier inoxydable sont disponibles pour certains éviers design de la série KESHI.

VANTAGE

LIVE BALANCED

Introducing the ultimate in sophistication and luxury, the VANTAGE Series is bold and edgy. Its exclusive designs and character will surely leave a lasting impression.

All PEARL® kitchen sinks are made with StoneGuard™ undercoating and sound dampening materials to improve material rigidity and endurance. Strainers are also included for ease of installation.

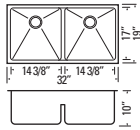

Image: AKOYA

Présentation de l'ultime sophistication et de luxe. La collection VANTAGE est en gras et nerveux. Chaque pièce déclare une caractéristique spécifique qui ne ressemble à aucun autre. Leurs designs exclusifs et de l'individualité va sûrement laisser une impression durable.

Tous les éviers PEARL® sont faits avec une sous-couche StoneGuard™ et des matériaux d'insonorisation afin d'améliorer la rigidité et la résistance du produit.

TOP-MOUNT SINKS

SLEEK PERSONA

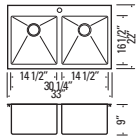

The PALO Series and IONA Series combine classic designs with modern elements to provide consistent quality and elegance, regardless of your preferred kitchen style.

Both the PALO and IONA models offer versatile mounting options suitable for various countertop materials, including laminate and other alternatives.

Image: PALO - PDR

Les évier PALO et IONA sont motivés d'une conception traditionnelle avec un style contemporain, pour vous assurer de la même qualité et de l'élégance dans n'importe quel type de cuisine.

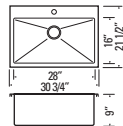

Le PALO et le IONA offrent tous deux des styles de montage flexible pour les comptoirs de stratifié et les autres types de revêtement.

MABÉ

OBJECTS OF DESIRE

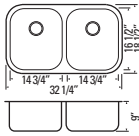

The MABÉ Series is derived from the concept of being unique, versatile, and practical.

The result is high quality, undermounted, double-bowled stainless steel sinks designed using state-of-the-art materials. It is everything a kitchen sink needs to be and more.

Image: MABÉ - CLX

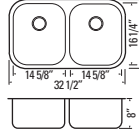

La série MABE découle de la concept de l'être unique, polyvalent et pratique.

Et le résultat a été une grande qualité, pour les cuves à intégrer, les bacs doubles, les lavabos en acier inoxydable conçus à l'aide de matériaux de pointe associés au savoir-faire traditionnel. Il a tout d'un évier de la cuisine doit être en plus.

STYLE FORWARD

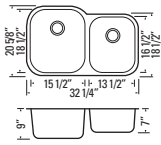

The Q Series offers the timeless sink design of the MABÉ Series in the same surgical grade stainless steel but in superior 16 gauge thickness. Its quality is simply beyond compare.

The Q Series represents the pinnacle of PEARL® craftsmanship and quality. This line suits both contemporary and traditional kitchen settings.

Image: Q - SL

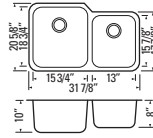

La collection propose des créations Q évier intemporels dans le même acier chirurgical inoxydable de qualité mais en lourd de qualité épaisseur 16 jauge. Sa qualité est tout simplement incomparable.

Le Q symbolise le savoir-faire et la qualité de PEARL®. Ce produit s'adapte parfaitement à l'environnement d'une cuisine à la fois contemporaine et traditionnelle.

MÉLO

DESIGN NECESSITY

Featuring smaller countertop footprints for tighter spaces, the subtle form of the MÉLO Series is favoured by kitchenettes and cozy flats alike.

Avec des empreintes de comptoir plus petites pour des espaces restreints, la forme subtile de la série MÉLO est favorisée par les kitchenettes et les appartements confortables.

TAHI

VENTURE FORTH

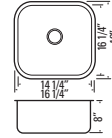

The perfect balance between substance and style, the versatile design of the TAHI Series suits any setting.

Its smaller calibre and uncompromising functionality are equally preferred by designers and bartenders.

L'équilibre parfait entre la substance et le style. La conception polyvalente de la série TAHI fait partie dans tous les milieux.

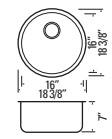

Son petit calibre et la fonctionnalité sans compromis sont également préférés par les concepteurs et les barmen.

TOILETS

BOLD & SLEEK

At Pearl®, we have always been inspired by the desire to improve everyone's quality of life. We have changed the perception of what a bathroom can be.

The impeccable white glazed finish and ceramic structure of Pearl® toilets embody the pride and uniformity we take in our approach to design.

Image: FISHER

Chez Pearl®, nous avons toujours été inspirés par le désir d'améliorer la qualité de vie de chacun. Nous avons changé la perception de ce que peut être une salle de bain.

La finition émaillée blanche impeccable et la structure en céramique incarne la fierté et l'uniformité que nous prenons dans notre approche pour la conception de nos créations.

EcoMax™ Dual Flush offers two powerful flush modes that effortlessly eliminates waste and saves water.

Fireclay ceramic is fired at 2,200 degrees to create its ultra-smooth, dust repellent, and scratch resistant surface.

The crystalline glaze offers enhanced protection and flawless perfection.

TUB FILLERS

SERENE FERVOUR

Pearl® bathtub fillers are designed with precision. Every curve and angle is carefully and purposefully crafted. We want them to fit in any ambience and always look like they belong.

Les robinets de baignoires de Pearl® sont conçus avec précision: chaque courbe et angle est réalisé soigneusement et minutieusement. Nous voulons qu'ils puissent s'intégrer dans n'importe quelle ambiance et faire semblant d'y appartenir naturellement.

MIRRORS

CALMLY REFLECT

Indulge your senses and experience the blissful reflections of your living space. Heighten your senses with more light and detail. The unwavering design language, luxuriously crafted finishes, and meticulously handmade metalwork make our mirrors not only a cut above, but absolutely beaming with allure.

Faits plaisir à vos sens et expérience vraiment les reflets bienheureux de votre espace de vie. Élevez vos sens avec plus de lumière et plus de détails. Lorsque vous ajoutez vos touches finales complétez votre chef-d'œuvre, que ce soit votre ensemble charmant ou votre allure séduisant. Le langage du design inébranlable, les finitions luxueusement élaborés et le métal travaillé méticuleusement fait à la main, rend nos miroirs non seulement de premier ordre, mais absolument rayonnants d'allure.

ENDURE

THE TEST OF TIME

PEARL® exclusively covers manufacturing defects in material and workmanship of PEARL® product (the “product” includes but is not limited to, sinks, faucets and accessories) during normal residential use for as long as the original purchaser owns the home in which the Product was originally installed and only in the case that the PEARL® product was installed by a professional.

Wear and tear, including but not limited to finish reduction, scratches, staining, or acid/alkaline etching over time due to normal usage, cleaning practices, or atmospheric conditions are not manufacturing defects and are not covered by this warranty. PEARL® will not be responsible for any incidental or consequential costs associated with any labour involved with the removal or installation of the sink, the faucet or its accessories or any shipping fees related to therein.

Exclusive warranty coverage starts from the invoice date of the products. Any returned materials must be accompanied by a return requisition form and a return requisition identification number from the PEARL® RMA requisition department.

Proof of purchase will be required, and the retrieval of this information will be the product owner’s responsibility in order to verify warranty benefits. This policy in its entirety excludes coverage for any shipping costs incurred.

For the most up to date warranty information specific to your product or to submit a claim, please visit our website <https://lifewithpearl.com/warranty-policy/>

PEARL® couvre exclusivement les défauts de fabrication liés aux matériaux et à la main-d’œuvre des produits PEARL® (le “ produit “ comprend, sans s’y limiter, les éviers, les robinets et les accessoires) dans le cadre d’une utilisation résidentielle normale, tant que l’acheteur initial est propriétaire de la maison dans laquelle le produit a été installé à l’origine et uniquement dans le cas où le produit PEARL® a été installé par un professionnel.

L’usure, y compris, mais sans s’y limiter, la réduction de la finition, les rayures, les taches ou le décapage acide/alcalin au fil du temps en raison de l’utilisation normale, des pratiques de nettoyage ou des conditions atmosphériques, ne sont pas des défauts de fabrication et ne sont pas couverts par la présente garantie. PEARL® ne sera pas responsable des coûts accessoires ou indirects associés à la main-d’œuvre nécessaire au retrait ou à l’installation de l’évier, du robinet ou de ses accessoires, ni des frais d’expédition y afférents.

La couverture exclusive de la garantie commence à la date de facturation des produits. Tout matériel retourné doit être accompagné d’un formulaire de demande de retour et d’un numéro d’identification de demande de retour provenant du service de demande d’autorisation de retour PEARL®.

Une preuve d’achat sera exigée et le propriétaire du produit sera responsable de la récupération de ces informations afin de vérifier les avantages de la garantie.

Pour obtenir les informations de garantie les plus récentes concernant votre produit ou pour soumettre une réclamation, veuillez consulter notre site Internet <https://lifewithpearl.com/warranty-policy/>.
